\* The SDR (Special Drawing Rights ) is an international reserve asset, created by the International Monetary Fund (IMF). When converting the SDR to other currencies, exchange rates published in Official Gazettes by Turkish Republic Central Bank are used.

Third party fiscal liability insurance for civil aircraft covers the situations which results in deaths, injuries and damages to the property or belongings caused by civil aircraft or any parts which have been dropped from them. Revenue losses and rental losses and other indirect costs are not covered by this insurance, but can be insured optionally.

Turkish Republic State Courts are authorised in the cases comprising disagreements on damages in the scope of third party fiscal liability insurance for civil aircraft which has been experienced in Turkish Airspace,
